[About Us](#)

At Mintalar Family Dental, one of our priorities is the prevention of dental issues before they become painful, stressful, and expensive problems. For patients within Minneapolis, Brooklyn Center, [Golden Valley Dentists](#), and the surrounding areas, our professional and friendly staff of dental experts offers preventive care services including routine and thorough cleanings, as well as preventative sealants. We believe early detection makes all the difference when it comes to the dental health of our patients; it allows us to begin treatments sooner rather than much later, which could result in the worsening of a dental situation.

Dr. Mintalar is very kind and always cheerful! He is thorough and cares about his patients! The staff is amazing and super friendly. I love coming to get my teeth cleaned because it is always such a great experience!

Julia A

Great dentist! Dr. Eric and the staff are very friendly and knowledgeable. Kelley was my hygienist for years and she was always fun to talk to. The only reason I left is that I moved away from the area, but I'd recommend them highly.

Adalyn

The absolute best place to go for anything! Dr. Eric and the dental assistant Bri are both amazing! They make me feel so comfortable and always explain everything in depth every time.
