

PhyBill

Since 1992

A serious business approach... Owned and managed by a seasoned team... Small, personalized, detail oriented, caring service... Revenue (yours) driven.

Contact Us >

Since our inception, Phybill, Inc. has been ahead of the curve in every area. We were among the first three vendors who successfully tested and were approved to submit HIPAA 5010 claims, a technical way of saying we beat the big companies with the then new standards of file format electronic submission. We were among the first to explore an EMR exclusively for the psychotherapy provider. We obtained training and certification in HIPAA and Compliance going back to 2001, before it was even called HIPAA! Our CEO has enjoyed two appointments to Florida's Medicare carrier's Provider Outreach and Education Committee, and recently completed a five year stint as the treasurer of PLTC (Psychologists in Long Term Care), a national organization.

Satisfied Clients

“

Wow what great service, I love it! No matter where you go, PhyBill is the coolest, most happening thing around! I wish I would have thought of it first. The best on the net!

John Smith
CEO

"I don't worry if my staff is productive and compliant...
PhyBill keeps them running in fine tune"
—Dr. B.C.
